The project will result in increased job opportunities for the local area. Some of these job opportunities may include:

- Surveying
- Civil engineering
- Mechanical work
- Electrical Work
- Road construction
- Transportation equipment
- Earthwork activities
- Maintenance of vehicle fleet
- Maintenance paths
- Snow removal
- Other related services

Indirect Benefits

Increased spending on goods and services during construction and operational phases.

- Lodging
- Food Services
- Supply Stores

Municipal, Local and Indigenous Community Benefits

We value the long-term benefits of working with the local stakeholders and Indigenous communities. If the project is approved, community benefits will include:

- **Employment** opportunities during the construction and operational phases of the project. The project is anticipated to generate up to 150 jobs at peak construction, and up to 4-5 permanent positions during operations.
- **Contract opportunities** for local businesses.
- **Local investments** into hospitality and construction services during the development, construction and operational phases of the project.
- **Tax revenues***: Approximately \$675,000 per year (\$20M+ over the life of the Project)
- **Potential community or Mi'kmaq ownership**

*Taxation rate to be confirmed
