Adobe Sign

DocuSign

- Proactive and timely event reminders and milestone calendar
- Notifications for expirations, renewals, and other key events
- Reduced financial exposure for missed obligations

Contract Management Integrations

- Drag and drop integration marketplace with Malbek Konnect
- Productized, predefined connectors available out of the box
- Flexible APIs to connect contract data to the rest of the organization

Artificial Intelligence

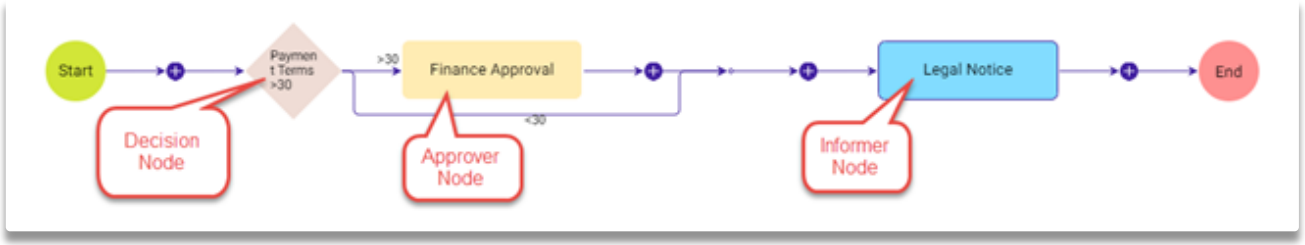
- AI capabilities built on top of contract data and contracting lifecycle
- Functionality beyond metadata extraction and analytics
- Concrete recommendations to accelerate and build better contracts

Business flows

- Sometimes called the lifecycle
- Charts the stages a contract goes through during its lifetime, initial draft to negotiation to signature
- Within each Stage, individual actions may be defined
- Its own component, created separately

Workflows

- Also called Approval workflows
- Defines who needs to approve a contract based on certain parameters
- Workflows are made up of individual nodes, three types
  - Decision
    - Meet conditions required to proceed
  - Approval
    - Go to one person or many
  - Informer
    - A message is sent



10 Must haves

1	Contract Repository	**6**	Performance Reports
2	Alerts	**7**	Contract Types
3	Advanced Search	**8**	Template Automation
4	eSignature	**9**	Approval Workflows
5	Contract Creation	**10**	Contract Discovery
